6 September 2010

Attention: Mr. Mark Brown  
CCG Australia Pty Ltd  
P.O Box 285  
Joondalup  
Western Australia WA 6919

To Whom It May Concern,

**Subject: CCG glands, adaptors, etc.**

This is to verify that CCG cable glands were selected as the preferred product for the construction of eni's Blacktip Onshore Gas Plant, located in the Northern Territory, Australia.

CCG Ex cable glands and associated fittings were used on most of the electrical and instrument installations, in both hazardous and non-hazardous areas. The products were selected based on hazardous area compliance, technical merit and ease of installation.

The Blacktip Project consists of an offshore gas field, an unmanned Wellhead Platform located in the Joseph Bonaparte Gulf, a 110 km pipeline to shore and a minimum manned Onshore Gas Plant located close to Port Keats (Wadeye) which is 245 km south west of Darwin.

CCG was able to meet all delivery requirements, their service is very reliable and I would not hesitate to recommend them for future projects.

Yours Sincerely

Antonio Marino  
Construction Manager & Electrical Engineer  
Blacktip Project
