TO WHOM IT MAY CONCERN

CCG has been a preferred supplier to Southern Cross Electrical Engineering since 1997. Over this time we have used their products including glands, junction boxes and adaptors. We also assisted with them in the development of a lighting junction box which is now standard on all our projects.

Some of the projects nationally and internationally on which we have used CCG products are:

BHP	Beenup	(Western Australia)
BHP	Cannington	(Queensland)
MURRIN MURRIN	Nickel Plant	(Western Australia)
WINDIMURRA	Nickel Plant	(Western Australia)
ALCOA	Pinjarra & Wagerup	(Western Australia)
GEITA Project	(Tanzania)	
GOLDEN PRIDE Project	(Tanzania)	
RUGBY LIME Project	(Jamaica)	
BIBIANI Mine	(Ghana)	
DAMANG Gold Project	(Ghana)	

We have found their service to be impeccable and their products to meet stringent contractual demands.

I have no hesitation in recommending CCG as a company to any prospective client.

Yours faithfully

JASON SHAW
PROCUREMENT MANAGER
